

ICE BAGS

THE BASICS

Our Ice Bags are designed to exhibit higher tensile strength for cold storage, preventing any cracking or damage that can occur to film in freezing temperatures. These are manufactured with a blend of 100% virgin Low and Linear Low-Density Polyethylene with a metallocene or EVA additive. Choose from a variety of stock Layflat, Gusseted and Printed Wicketed options or custom build your Ice Bag to your specification.

LAYFLAT & GUSSETED ICE BAGS

- ▶ Made with a blend of 100% virgin LDPE/LLDPE and 15% metallocene.
- ▶ Available in 5, 8, 10 or 50 lb. stock sizes.
- ▶ Layflat bags feature a side weld construction. Gusseted bags feature a bottom seal construction.
- ▶ Custom and printed options are available.
