

# STAND UP POUCHES

Made from a choice of two different films with varying barrier properties. These are designed to keep contents fresh and stand up on their own when full. All pouches are heat sealable, featuring a K-style construction, 3/8" seals, tear notches at 1", zipper at 1.5" and 1/4" round hang hole. These are USDA and FDA approved.

These pouches are great for R&D, trial, beta testing and market introduction phases of product development.

# CUSTOM PRINTED STAND UP POUCHES

## CUSTOM STAND UP POUCHES

Made from multiple film layers with varying barrier properties. Our Stand Up Pouches are designed to keep contents fresh and stand up on their own when full. Choose from four of the most commonly used sizes in clear or white foil. All pouches are heat sealable, featuring a K-style construction, tear notches and option of a sombrero or ¼" round hang hole. Flat packaged in cases. Contact your representative to custom design your Stand Up Pouch with Digital Printing.

### High-Quality Digital Printing

Print any number of colors on all sides for a single print charge per SKU for new or updated artwork. Choose a matte or gloss finish, with the option to print all the way to the edges of the pouch. We offer low minimums and a fast lead time for printed product.

### K-Style Construction

Constructed with 3/8" seals on three sides, and two angled seals at the bottom to make the pouch stand more sturdily. All pouches are measured in outside dimensions.

### Two Film Options

Available in clear PET/poly or white foil. Choose the film which best suits your needs – whether one with a lower oxygen and water transmission rate to protect contents freshness, or a higher clarity option for improved retail display. Material specification documents are available upon request.
