

# VACUUM POUCHES

Made from a Poly Nylon blend, our vacuum pouches are designed for chamber applications. All pouches are sealed on 3 sides and feature a multi-layer construction. Popular for food storage, freezer, “bone-in,” microwave and boiling applications. We do not certify or guarantee fit for end use applications. Specific applications and performance should be evaluated by end user as they apply for suitability.

## PRODUCT FEATURES

- ▶ Meet FDA and USDA requirements for food contact
- ▶ Co-extruded Poly/Nylon (PA/PE)
- ▶ MTR < 6 g/sq. m
- ▶ OTR < 60 cc/sq. m
- ▶ Popular for microwave, freezer, boiling and “bone-in” applications
- ▶ Non-channeled for chambered vacuum sealers
- ▶ 10 additional film choices available as custom options

## 3 MIL NON-CHANNELED VACUUM POUCHES
