

STRETCH FILM BY BERRY

Berry Global is an industry pioneer for oriented, high-strength films. Their commitment to innovation has kept Berry a leader in stretch film technology for over 40 years, with next-generation solutions helping customers do more with less. Choose Berry Hand Stretch Film for an ergonomically superior design, or upgrade to Berry Machine Stretch Film for those higher volume loads that require precise speed and consistency.

MACHINE STRETCH FILM BY BERRY*

Made from a blend of Linear Low-Density Polyethylene. Available in the most popular sizes of blown or cast film in gauges from 51 to 115 gauge, with varying cling types (100 gauge = 1 mil). All film is provided on rolls with 3" cores and is available bulk packed on a pallet. Sold by the pallet. Lead times may extend beyond standard stock turnaround times.

ADVANTAGE™ MACHINE FILM

Versatile, cast machine film with one-sided cling, works well for most applications, provides outstanding performance consistency and containment.
